EXECUTIVE SUMMARY

Business Intelligence / Data Analyst candidate with experience building end-to-end data pipelines, developing SQL-driven analytics, and creating Power BI dashboards to support operational decision-making. Skilled in translating complex data into clear, actionable insights for non-technical stakeholders, with a focus on data quality, reporting, and scalable analytics workflows. A team player with a principled sense of responsibility for the betterment of self, team, and society. Eager to learn new technical skills.

Portfolio Website: <https://code-of-toad.github.io/>

EDUCATION

HBSc, Applied Statistics, Computer Science, Mathematics
University of Toronto

Expected Graduation: September 2026

FEATURED PROJECTS

Anti Money Laundering (AML) Risk Detection & Decision-Support Pipeline

[\[GitHub\]](#)

Python, Machine learning, SQL-style data modeling, scikit-learn

- **Top 5 placement in AML analytics competition** hosted by University of Toronto (IMI BigDataAIHub) and Scotiabank (~490 participants, 90 teams).
- Built an **end-to-end AML analytics pipeline** using rule-based and **anomaly detection** methods.
- Developed **modular workflows for data processing, scoring, and output generation**.
- Generated **interpretable outputs for non-technical stakeholders**.

E-Commerce Backend: CSSU Rewards System API

[\[GitHub\]](#)

Node.js, Express.js, Prisma ORM, SQLite, RESTful API Design

- Designed and implemented a **RESTful backend API** for a points-based rewards system with secure authentication and role-based access control (RBAC).
- **JWT-based authentication** and secure password handling, with **input validation** to ensure **data integrity**.
- **Designed relational database schema using Prisma**, enabling efficient querying, data consistency, and maintainable schema evolution.

PROFESSIONAL SKILLS

- **SQL & ETL:** Query, join, aggregate, transform, and validate relational data for analysis and reporting.
- **Visualization:** Develop interactive dashboards in **Power BI/Tableau** using KPIs, filters, and time-series.
- **Data Modeling:** Design effective **relational schemas** to support business needs.
- **Data Analysis:** Clean data, detect anomalies, and produce statistically justified predictions.
- **Technical Literacy:** Read and write code in **Python, C/C++ , Java, JavaScript, Assembly**.
- **Business Communication:** Gather requirements, align reporting with business needs, and present insights to diverse stakeholders.

WORK EXPERIENCE

Math Tutor

December 2022 – October 2025

Tutorax - Mississauga, ON

- **Explained complex concepts intuitively** using structured breakdowns and visual aids.
- **Adapted teaching style across multiple students** of diverse temperaments and grade levels.
- **Built strong relationships with students and parents**, maintaining clear communication.

Math Instructor

January 2023 – March 2023

Mathnasium: The Math Learning Center - Mississauga, ON

- **Managed multiple students simultaneously** while maintaining individualized attention.
- **Increased student test scores** through structured, engaging instruction.
- **Identified learning gaps** through regular assessment and adjusted teaching accordingly.

VOLUNTEER EXPERIENCE

Manuscript Grader

January 2026 – February 2026

STEM Fellowship - Mississauga, ON

- Evaluate student manuscript submissions using the provided rubrics and review forms.
- Give students personalized feedback on their scientific thinking and rigour.
- Coordinate with the Data Science Committee of STEM Fellowship to ensure timely reviews.

UTM Library Ambassador

September 2024 – April 2025

University of Toronto - Mississauga, ON

- Host events held on campus and in the library for students and community members.
- Provide in-person library tours for prospective students and community members.
- Host de-stressor events before exam season, including therapy dog sessions.

Preliminary Judge

February 2024

Canada FBLA - Toronto, ON

- Judged coding projects at the National Leadership Conference (CNLC) competition.
- Attended mandatory training session.
- Maintained professionalism through business-formal dress code and demeanour.

PERSONAL INTERESTS

- Lifelong musician with particular interests in music production and songwriting.
- Philosophies of consciousness, ethics, and the nature of reality.
- Committed to continuous learning and professional development.

LANGUAGE COMPETENCIES

- **English:** native proficiency (speaking, reading, writing)
- **Korean:** native proficiency (speaking, reading, writing)
